# CORPORATE SPOTLIGHT

I am excited to share my brief story on our first Beyond Slim newsletter. There are several pivotal moments in my life that have led me to create this Company.

When I was 15 years old, my mom was healed of a crippling case of osteoporosis through the use of supplements. It sparked my passion for nutrition at a very early age, because I saw it save my Mom's life.

My personal goal when I was 21 was to attend Yale Law School, the top law school in the country, and was blessed to be accepted! It was during law school that I was introduced to the direct sales industry.

My parents were immigrants from Europe who came to America on a boat in 1955 with 2 children and no money. I watched both of my parents work two jobs to support our family of 6. As a result, I was driven to learn as much as I could about the direct sales industry that could enable people from all walks of life and education to enjoy financial success and realize their dreams! The more I learned, the more I became intrigued by the word of mouth model! I was able to use my research on this industry to complete my thesis for law school on the good and bad of the direct selling industry.

Upon graduation I was able to combine my passion for nutrition and direct selling and created a company that did over \$1.2 billion in sales, helped hundreds of thousands of people achieve optimal health and paid out about \$500m in commissions to hardworking people all over the world. After 22 years, I merged that company with another direct selling company and thought I was going to "retire".

My "retirement" ended within just a few months as I realized 2 things:

1. There is a serious health crisis in American and around the world and no one is providing a Full-Circle total wellness product that is backed by clinical research, simple and delicious to take each day and;
2. The direct selling industry has let the part-time person down. No one was providing a solid income opportunity for them, and they represent 90% of the people in our industry. And when the 90% are feeling rewarded, recognized and happy, that translates into a thriving, successful organization for the top leaders, the 10%.

Beyond Slim is a major paradigm shift in the direct selling industry. It's doing something no other company has done before. We're on an incredible journey together and we are just getting started.

Thank you so much for joining us!

BEYOND SLIM®

The best advice ever given to me in the direct sales space was, “create as much activity as fast as possible & success will follow.” This is what I live by. If you run as fast as you can you WILL win!

Keep your social media updated, offer samples, create reels, do vendor events, etc. — the more activity you create, the more people you will touch & help them earn income or change their life with ZipSlim.

The more lives you change the more success you will find.

I know that seems like a no brainer, but when you are creating activity take it from the perspective that you want to make authentic relationships and truly help people. Don't only make relationships because you simply see them as a dollar sign! Find it within your soul to lead with a true & authentic servant heart. The more you pour into those around you they will feel your warmth which attracts people to you. Your enthusiasm will create abundant and lifelong success.

# ZipSlim GOES "BEYOND" SLIM

## 1. REDUCTION IN WAIST SIZE

In a 2013 published clinical study, 100 overweight participants (Avg. BMI 31) were put on a diet (1250 calories for women; 1500 for men) and exercise plan (30 min per day of 70% aerobic/30% strength training). 50 of the patients were given one of the key ingredients in ZipSlim™ twice a day and 50 were given a placebo pill.

After **24 weeks** the placebo group lost 1.2 inches from their waist and the key ingredient group **lost 3X more, a whopping 3.9 inches!\***
