# CEO Message

Dear Friends,

With the launch of **ZipBURN™ – The GLP-1 Synergizer™** this month, we are at the forefront of one of the biggest trends ever in weight loss and metabolic health and that is enhancing your body's ability to naturally produce GLP-1. GLP-1 stands for the weight-friendly hormone glucagon-like-peptide-1 and recent science has found that it plays multiple roles in helping maintain a healthy weight and a number of other important health benefits. This trend is already reaching billions of dollars in sales and is expected to grow 15X by 2030!

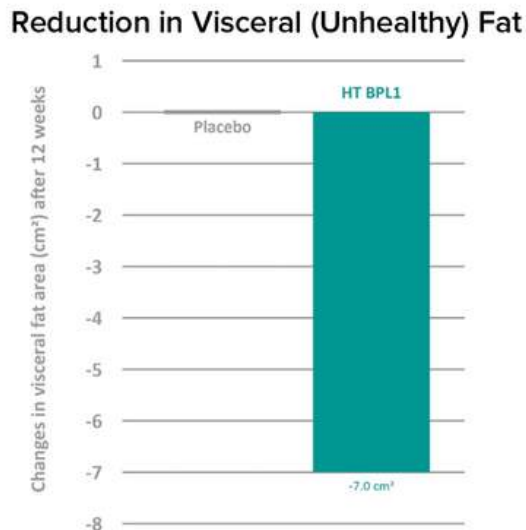

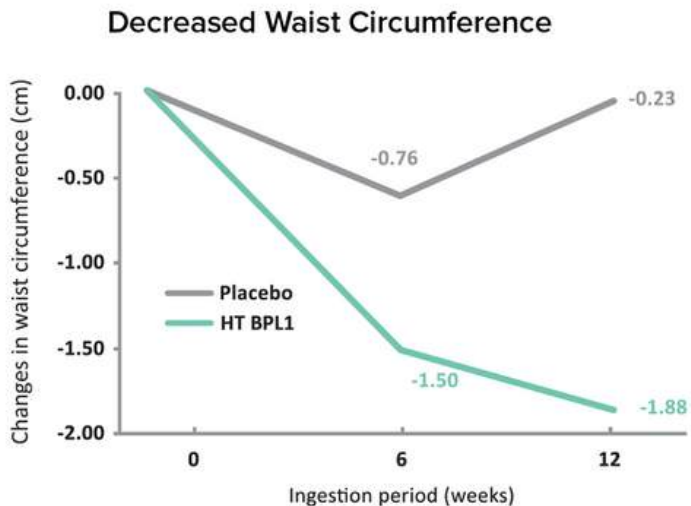

GLP-1 decreases with age, stress, poor diet and lifestyle. So taking steps to naturally increase GLP-1 can be extremely important if you want to become fitter, healthier and happier.

ZipBURN is a proprietary, cutting-edge supplement that contains 5 key herbal ingredients that have been scientifically shown to naturally increase GLP-1 levels, along with a new, bioactive postbiotic that fights abdominal fat and toxic visceral fat.

A MESSAGE FROM  
CEO & FOUNDER  
**RAY FALTINSKY**

Our formula is totally exclusive to Beyond Slim and not available anywhere else. It starts with our award-winning, patented postbiotic called BPL1 HT (heat-treated Bifidobacterium animalis subspecies lactis CECT8145). I know that's a mouthful but the science on this ingredient is stunning! **With 9 years of development by a multibillion-dollar company, it has been shown in clinical research to significantly reduce belly fat and toxic visceral body fat in only 12 weeks! This study was published in the highly respected, peer reviewed International Journal of Obesity.**

It has also been shown to support healthy Akkermansia levels in your gut for metabolic, digestive and overall health. Akkermansia has been featured in 3000+ scientific publications and has been found to increase GLP-1 levels. Taking Akkermansia capsules is dubious at best as Akkermansia dies when exposed to oxygen. So more times than not, it's not benefiting you at all. ZipBURN does not have that challenge because BPL-1 does not contain Akkermansia. Instead, our exclusive formula works by helping you naturally increase Akkermansia levels in your gut!

ZipBURN also includes our proprietary GLP-1 Synergizer Blend (900 mgs). Each of the 5 ingredients in this blend have been extensively studied for their positive impacts on GLP-1 levels. In addition, they have been the subject of research for many other health benefits.

The 5 herbal superstars include berberine, cinnamon bark extract, curcumin, organic ginger root and green tea (decaffeinated).

We feel extremely fortunate to be on the cutting edge of science and this massive trend and we are thrilled to be the only company to bring the blessing of ZipBURN to millions who want to become fitter, healthier and happier!!

Keep Burning!!

Ray

# ZipBURN™

THE GLP-1 SYNERGIZER™

## WHAT IS ZipBurn™?

ZipBURN™ is a proprietary, cutting-edge supplement that contains 5 key natural herbal ingredients that have been scientifically shown to naturally increase GLP-1 levels, along with a new, patented bioactive postbiotic that fights abdominal fat and unhealthy visceral fat. ZipBURN™ has been specifically designed to provide optimal weight management support and help you get fitter, healthier and happier!\*

## KEY BENEFITS

- 🔥 Supports Healthy GLP-1 production\*
- 🔥 Scientifically validated to target stubborn abdominal fat\*
- 🔥 Helps fight unhealthy visceral body fat\*
- 🔥 Helps maintain a healthy weight\*
- 🔥 Helps support the body's own healthy levels of Akkermansia, an important probiotic for gut, metabolic and digestive health\*

## HOW IT WORKS

Your gut naturally produces special hormones that play multiple roles in helping to maintain a healthy weight. A particularly important hormone is *glucagon-like peptide-1*, often abbreviated as *GLP-1*. GLP-1 works in your body with a four-way action:

- 1. Insulin Release:** When you eat, GLP-1 signals your pancreas to release insulin. Insulin helps regulate blood sugar levels.\*
- 2. Blocking Glucagon:** GLP-1 prevents excess glucose from entering your bloodstream by blocking glucagon secretion. Glucagon raises blood sugar levels when needed.\*
- 3. Slower Digestion:** It slows down stomach emptying, reducing the release of glucose from food into your blood.\*
- 4. Feeling Full:** GLP-1 quenches hunger and increases satiety, making you feel fuller after eating.\*

Unfortunately, GLP-1 can decrease with age, stress, poor diet and lifestyle, but now you may be able to restore younger and healthier levels of this important weight-friendly hormone...with ZipBURN™!\*

## WHAT'S INSIDE?

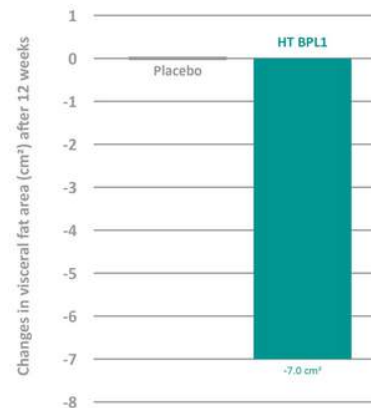

### Postbiotic BPL1® HT (heat-treated *Bifidobacterium animalis* subspecies *lactis* CECT8145)

With 9 years of development by a multibillion-dollar company, this new, award-winning, patented postbiotic has been shown in clinical research to significantly reduce belly fat and toxic visceral body fat in only 12 weeks. Also found to help support healthy Akkermansia levels for gut, metabolic, digestive and overall health. **Decreased Waist Circumference**

**Reduction in Visceral (Unhealthy) Fat**

### GLP-1 Synergizer Blend (900 mgs)

Each of the 5 natural ingredients in the GLP-1 Synergizer Blend have been extensively studied for their positive impacts on GLP-1 levels. In addition, they have been the subject of research for other related health benefits.

#### Berberine

Berberine, a natural compound found mainly in the barberry plant, has been a staple in traditional Chinese and Ayurvedic medicine for centuries. Contemporary studies reveal that berberine effectively improves insulin sensitivity, helps maintain blood sugar levels that are within the normal range, and boosts metabolic health. These properties support weight loss by enhancing fat metabolism and decreasing fat storage.

#### Cinnamon Bark

Cinnamon bark, from the inner bark of *Cinnamomum* trees, has been valued for thousands of years, especially in ancient Egypt for its flavor and medicinal properties. Traditionally used for its antimicrobial and anti-inflammatory benefits, modern research shows cinnamon improves insulin sensitivity, helps maintain healthy blood sugar levels, and enhances metabolism. These effects can aid in weight loss by regulating appetite and reducing fat storage.

#### Curcumin

Curcumin, the active compound in turmeric, has been used for thousands of years in traditional Ayurvedic medicine for its potent anti-inflammatory and antioxidant properties. Modern research confirms curcumin's ability to reduce inflammation, improve insulin sensitivity, and support metabolic health. These benefits can aid in weight loss by enhancing fat metabolism and reducing fat storage.

#### Organic Ginger Root

Ginger root, a popular spice and medicinal herb used for centuries in various cultures, is celebrated for its digestive and anti-inflammatory properties. Modern research shows that ginger can enhance thermogenesis, improve insulin sensitivity, and reduce inflammation. These benefits support weight loss by boosting metabolism, increasing calorie burn, and reducing fat storage.

#### Green Tea Extract (decaffeinated)

Decaffeinated green tea extract, derived from the young leaves of the *Camellia* plant, offers the health benefits of green tea without the caffeine. Rich in antioxidants like EGCG, modern research shows it can boost metabolism, enhance fat oxidation, and improve insulin sensitivity. These effects contribute to weight loss by increasing calorie burn and reducing fat storage.

However, you may share them privately with individuals to whom you wish to extend a discount.

Please bear in mind that using promo codes will result in a decrease in the amount of Product Points earned as well as a reduction in your Customer Introduction Commission (CIC).

Here's a breakdown:

FOR A TWO BAG ORDER OF ZIPLSLIM ON SUBSCRIBE AND SAVE (S&S)		FOR A SINGLE BAG ORDER OF ZIPLSLIM ON S&S			
S&S order with <i>no promo code</i>	=	100 Product Points \$50 CIC	S&S one bag with <i>no code</i>	=	50 Product Points \$25 CIC
S&S order with \$10 <i>promo code</i>	=	90 Product Points \$45 CIC	S&S one bag with \$10 <i>discount</i>	=	40 Product Points \$20 CIC
